Signature	Title	Date

- **Include payment, two copies of the plans, and one copy of the functional program, with the completed application.**
- **Please make checks payable to Department of Health.**
- **Note: Incomplete applications will be returned without review.**

DOH 520-002 (Rev. 011/05)

Instructions for Completing the Department of Health, Construction Review Services Application

(Subject to change without notice.)

Block 1 – Project information

- Fill in the facility name. The facility name should match the name given to the Department in previous applications, and should be the same as indicated on the facility license (if currently licensed).
- Enter the project title. The project title will identify the work to be performed, will remain the same throughout the project, and should be a limited number of characters. **All submissions shall be identified by the facility name and project title**.
- Enter the physical address of the location where the construction or renovation will occur.
- Check the most appropriate type of facility. A separate application and set of documents shall be submitted for projects containing multiple facility types. The documents should clearly identify which areas are to be included under which facility type.
- Construction Review Services (CRS) works closely with the local building jurisdiction. Please provide the name of the local building jurisdiction. In some cases there may be two local agencies that have jurisdiction. Please provide both jurisdictions.
- Enter a brief project description. For renovations, include the location within the facility where the renovation will occur (e.g., third floor, west wing, etc.).
- Interior Finish – The review fee for interior finish projects is $80. Projects that require no construction or physical modifications to the facility qualify as interior finish projects. Identical materials being installed to replace existing CRS approved materials, do not need to be submitted for review.
- Change of Approved Use – If this application is for a Change of Approved Use, the Construction Review fee will be $120. Change of use projects only apply to projects where construction is not required to meet the regulations for the intended use, and the facility is currently licensed by DOH/DSHS (e.g., patient room to office – submission of supporting documents still required).
- Temporary Worker Housing – **The Temporary Worker Housing Construction Standard checklist must be completed and submitted with the application**. The plan review fee schedule is listed on the checklist.

Block 2 – Facility information

- Enter the administrator name. This should be the same as indicated on the application for the facility license.
- Enter the email address, if available. To save time, CRS will often email review comments to the project team members.

Block 3 – Consultant

- The consultant is the architect or engineer that will be assisting you with your project. We strongly recommend the services of an architect or engineer be used as early in the project as possible. Licensing regulations require most facilities drawings to be stamped and signed by an architect or engineer registered in the state of Washington.

Block 4 – Project Cost.

- Review WAC 246-314-010(4) for the definition of project cost. Enter the estimated cost for new construction and alterations / renovations on the appropriate lines. Project cost shall include the cost of all project-related costs except taxes. Certain equipment costs may be waived from being included in the construction cost upon the approval of CRS. A request shall be made to CRS in writing before the approval can be granted. Enter the estimated date in which the space will be occupied for its intended use. For a project that requires Certificate of Need (CON) approval, fill in the appropriate information, for Hospitals, Psychiatric Hospitals, Hospice Care Centers, Ambulatory Surgery Centers, and Nursing Homes only. By signing this application, you attest that you have verified the applicability of CON, and the information provided is accurate.
- Review WAC 246-359-990 for Temporary Worker Housing fee schedule.

Block 5

- Sign and date the application. Include your title in relation to the project (i.e., Architect, Project Manager, Engineer, Administrator, etc.).
- The applicant acknowledges that upon presentation of identification, the Department may enter the building or premises to inspect or enforce provisions imposed by the applicable codes.

Block 6 – Temporary Worker Housing (TWH) Construction Standard **ONLY**

- In addition to submitting a completed CRS application (Blocks 1-5), all support approval documentation must be attached and submitted with the completed addendum page (Block 6).
